

Comment on RM-10620

Submitted by Kenneth Hudelson, K0KEN

Dear Sir:

I want you to know that I think this change in rules is very appropriate. I have an Advanced amateur radio license and have been continuously licensed since 1963. I am currently active in the hobby by various means. I feel that an automatic upgrade would be appropriate because my license is half way between the General and the extra license. I also believe that I should be upgraded because it would simply make things easier to get rid of a license that is no longer in the system. If this RM-10620 is not passed by your office I will upgrade through the test cycle as I have the knowledge to do so.

Kenneth Hudelson, K0KEN
